**“Golf Course Agronomy in Las Vegas”**

Glenwood Springs, CO (September 19, 2009) – *Golf Club Consulting, Inc.* will be reviewing all present and future agronomic issues of *Stallion Mountain CC* in Las Vegas, Nevada.

*Stallion Mountain CC* was owned by *Nevada Community Bank*, which recently was closed by the FDIC.

“The golf course is located in east Las Vegas within a large residential development. It was originally a 54-hole golf course, but was reduced to 18 holes a few years ago. Our responsibility is to review the present status of the golf course and all of the golf course maintenance issues.” said Dick Eide of *Golf Club Consulting, Inc*

“We have assisted the *FDIC* on numerous occasions. Our assignment is to assess the present status of the golf course and make sure the golf course is maintained properly going forward. The intent of the *FDIC* is to stabilize the golf course, maintain it efficiently and sell it at fair market value. *Stallion Mountain CC* closed its doors prior to the closure of *Nevada Community Bank*. The course inspection will include future golf course maintenance recommendations”. said Dick Eide of *Golf Club Consulting, Inc.*
